MAJORITY AGAINST ABORTION

Several polls, conducted in April and May, point to an increase in pro-life positions nationwide. Rasmussen, Gallup, Fox News and Pew all show that more Americans than ever hold a pro-life position: abortion should be illegal altogether or limited to cases of rape and incest or to save the life of the mother. In a surprising find, another poll by the Polling Company found that only 7% support President Obama's extreme position that abortions should be legal for any reason throughout pregnancy. Much work remains to protect the innocent unborn. Send in a donation today to help us continue to work toward the goal of changing hearts and minds through education.
